Winston Foodservice is pleased to announce the winning recipient of its annual Winston Equipment Grant Award. The recipient for 2019 is Franklin Special School District in Tennessee.

This annual grant program was established in partnership with the School Nutrition Foundation (SNF) to help schools in need serve hot, nutritious meals to their students. Grant recipients may choose any ten pieces of Winston's CVap[®] equipment, collectively valued at approximately \$50,000. The selected district decides which pieces best suit their unique needs.

Although Winston Foodservice provides the equipment for the grant, the company is not involved in selecting which district ultimately receives it.

School districts were encouraged to apply for the grant by submitting videos detailing their needs. Franklin SSD's submission

revealed how the district was struggling to properly feed their students, using old equipment in various states of disrepair. The district has been forced to spend over \$40,000 in equipment repairs over the last three years, but still struggles with broken equipment.

About Franklin Special School District

The FSSD is a preK-8 school system with approximately 3,700 students, located in central Tennessee. Students are served by eight schools: four elementary schools, one intermediate school, one middle school, and a K-8 school campus that includes an elementary and a middle school. The Franklin Special School District gets its unique name from a Special Act of the state legislature that provides the Board of Education its own taxing authority, enabling the schools to be funded appropriately in order to maintain "Excellence in Teaching and Learning for All."

Franklin SSD serves breakfast, lunch, and AT RISK dinners during the calendar school year and also has a breakfast and lunch summer meal program.

Who We Are

A lot of companies will tell you they "think outside the box." But that's not Winston Industries – we never actually fit in the box to begin with. We've always enjoyed the position of being just a little different in our approach.

Winston Foodservice is a division of Winston Industries, LLC. The Foodservice Division is an American manufacturer and distributor of commercial foodservice equipment in more than 115 countries. Our family of brands includes Collectramatic® fryers and CVap® holding, cooking, and re-therming equipment. Located in Louisville, Kentucky, the Winston family of divisions includes Foodservice, Win2uit® Electronics, Manufacturing, and Ventures.
